

General Exam Content Outlines For Salespersons and Brokers

Effective January 1, 2009

The general portion of the real estate exam is made up of eighty (80) scored questions, which are distributed as noted in the following content outline. Approximately ten percent (10%) of the scored questions on the general examinations will involve mathematical computations.

The salesperson and broker examinations also contain five (5) pretest questions that are not counted toward the score. These questions are used to gather statistics on performance and to help assess appropriateness for use on future examinations. Since pretest questions look exactly like questions that are scored, candidates should answer all the questions on the examination.

The following examination content outline is appropriate for real estate salespersons and real estate brokers.

I. Real property characteristics, definitions, ownership, restrictions, and transfer (Salesperson 16, Broker 12)
